OBJECTIVE

Junior Front-End Developer with expertise in **ReactJS**, **NextJS**, and **Tailwind CSS**, dedicated to crafting responsive and visually appealing web applications. With a solid **academic background** in **Information Systems**, I'm proficient in **UI/UX design**, **performance optimization**, and **Agile practices**, ensuring continuous delivery of software solutions that focus on delivering seamless user experiences. Eager to bring technical expertise, creativity, and a collaborative mindset to a forward-thinking team, driving impactful solutions and continuous growth.

EDUCATION

- Bachelor's Degree Computer and Information Science**, Ain Shams University (2019-2023)
(Information Systems) Department.

EXPERIENCE

- Software Engineer Freelancer, Upwork** (May 2024 – March 2025)
Delivered **10+ web applications** for clients, leveraging front-end technologies like **ReactJS**, **NextJS**, and **Tailwind CSS** to create responsive and visually appealing interfaces. Enhanced website performance by optimizing assets and implementing **code-splitting techniques**, reducing load times by **25%**. Collaborated with clients to gather requirements, provide updates, and ensure timely delivery of projects, achieving a **90% on-time completion rate**. Designed and implemented **user-friendly dashboards** and **interactive features**, improving overall user and satisfaction.
- Internship, Cultiv LLC** (April 2025 – Present)
Assist in improving internal systems and workflow automation using tech tools and data insights. Support cross-functional teams by collecting and analyzing data, troubleshooting technical issues, and contributing to active projects. Document process updates to enhance scalability and team knowledge.

TECHNICAL SKILLS

Responsive Design, Cross-Browser Compatibility, Web Performance Optimization, JavaScript, ReactJS, HTML, CSS, Bootstrap, Tailwind CSS, REST APIs, Git, GitHub, UX/UI Principles, Component-Based Architecture, Agile & Scrum, Technical Documentation.

- Frontend Fundamentals:** HTML5, CSS3, JavaScript, TypeScript.
- Frameworks & Libraries:** ReactJS, NextJS.
- State Management:** Redux.
- Styling:** Bootstrap, Tailwind CSS, SASS/SCSS.
- Responsive Design:** Cross-Browser Compatibility, Mobile-First Design.
- Front-End Testing:** Jest, Cypress, React Testing Library.
- Performance:** Web Performance Optimization, Lazy Loading, Image Compression.
- Agile & Scrum:** Sprint Planning, Daily Standups, Retrospectives.
- Technical Documentation:** API Documentation, Code Comments, Readme Files.
- Database:** Oracle, SQL Server, MySQL.
- Version Control:** Git, GitHub

PROJECTS

- Smart Farm (HTML, CSS, JavaScript, ReactJS, NextJS, Bootstrap)** [\(GitHub\)](#)
I developed a responsive dashboard using **ReactJS**, **Next**, and **Bootstrap** to monitor water quality and detect plant health issues through IoT and AI integration. The system allows users to upload plant images for health analysis, track water quality parameters in real-time, and receive automatic alerts if pollution is detected. By implementing real-time alerts.
- Small World Phenomenon (Algorithms)** [\(GitHub\)](#)
Simulated the Small World Phenomenon using **C#** and Visual Studio, showcasing how social networks are interconnected through a few intermediaries. Ensured project compatibility with newer Visual Studio versions through successful migration and backup.
- Banking System (Java)** [\(GitHub\)](#)
Developed a comprehensive banking application including models for users, accounts, loans, and transactions. Implemented core functionalities such as user login, account creation, and management.
- Personal Website (HTML, CSS, JavaScript)** [\(GitHub\)](#)
A sleek and professional portfolio website showcasing my skills, projects, and accomplishments to potential clients and recruiters.

LANGUAGES

• **Arabic** (Native)

• **English** (Excellent)
